FIELD OF RESEARCH

Theory and Philosophy of Architecture: By focusing on the Theory of Tectonics, Tectonics of Structural Systems, and Structural Problems in Architectural Design.

Fields of Interest (Academic Research Skills and Expertise)

- + Tectonic Design Approaches in Contemporary Architecture. (e.g., Iran, Turkey, Cyprus)
- + Tectonics of Flexural Structural Systems (e.g., Frame, 2-D Truss, 3-D Truss, etc.)
- + Tectonics of Traditional and Contemporary (Confined) Masonry Structures. (e.g., Iran, Turkey, Cyprus)
- + Tectonics of Form Resistant Structures.
- + Earthquake in relation to Architectural Design.
- + Tectonics of Technical/Structural Limits in Architectural Design.
- + Building Codes. (e.g., Prescriptive Building Codes, Performative Building Codes, etc.)
- + Philosophy of Technology.
- + Theory of Meaning in Architecture.
- + Material Cultures in Architecture.
- + Built Environment & Technology.
- + Building Technologies and Construction.
- + Regional Design Approaches in Contemporary Architecture. (e.g., Iran, Turkey, Cyprus)
- + Ontological Paradigms, Studies, and Research Methods in Architecture.
- + Phenomenological Paradigms, Studies, and Research Methods in Architecture.
- + Narrative Paradigms in Architectural Design Theory and Architectural Education.
- + Student-centered Pedagogy and Architectural Education.
